## Classroom Updates

Math Mrs. Lloyd	Social Studies Mrs. Murrell	Science Mrs. Lloyd	ELA Mrs. Murrell
<p>Students are working on multiplying and dividing whole numbers and decimals by the Power of 10(exponents). They will be taking a quiz today to see how they are progressing. It will come home to be signed in the next few days. Please review it with your child.We are still having fun with our Fantasy Football teams and using math skills.</p> <p>Next Week: adding and subtracting decimals</p>	<p>Students identified the three different forms of economy: market, command and free. Students discussed and defined each economy using a graphic organizer. The students worked together to simulate what labor would look like in each form of economy by participating in a bracelet making activity. Students had to follow specific instructions that related to each form of economy.</p>	<p>Students are using Edmodo to research how animals and plants adapt to their environments and what they need to protect themselves from predators such as migration, isolation,mimicry,physical and behavioral adaptations,vestigial organs. As a culminating project each student will create their own organisms and assign it needed adaptations for its environment.</p>	<p>In Reading, students have been meeting within their book clubs focusing their reading and writing about reading and discussions on how linking ideas build larger theories and interpretations. Students are using their interpretations and theories as they read on, to develop new ideas revising their original thoughts.</p> <p>In Writing, students continued to revise their narrative drafts by adding ending that tie the true meaning of their story together. Students included lessons learned and messages in their endings. Students used the Narrative Checklist to add final touches to their writing. Students had the opportunity to share their drafts across the grade level.</p>
